3RD ANNUAL
Production Sale

December 9, 2024

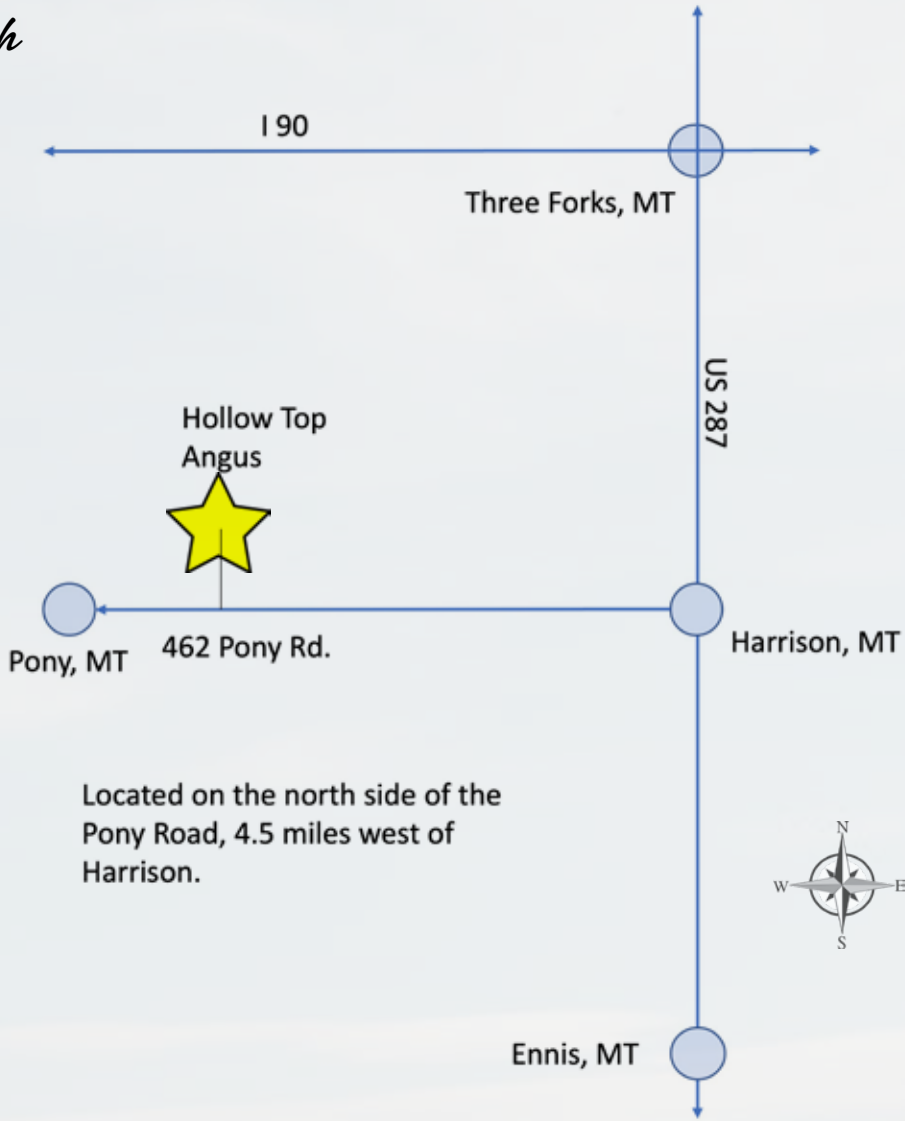

LUNCH AT 12:00 PM // SALE AT 1:00 PM

DOCILE & PAP TESTED

COMING 2-YEAR-OLD BULLS &
BRED FEMALES

Map to the Ranch

WELCOME

Welcome to Hollow Top Angus' 3rd Annual Fall Production Sale!

This is the first year that we have held our sale at our ranch in Pony and we have a truly great set of bulls for the inaugural event. These bulls are easily the best set that we have produced; you will see concrete progress toward our goal of developing a uniform set of bulls, delivered in condition to immediately go to work, thrive at elevation and have longevity.

Our 2024 sale features a set of 95 high-quality bulls that uniformly meets our phenotype standard and production goals – longevity with fertility and the ability to work at high altitude. The bulls in this sale are very docile, practically sized, and muscular. These bulls are PAP tested at 5800 feet at about 18 months of age. Nearly two-thirds of the bulls and most of the females offered in this sale have actual PAP scores below 44 mmHg. Videos of bulls are available on our website along with more detailed EPD data. The bulls' feet are pictured and displayed with the videos and EPD data on our website as well, www.hollowtopangus.com, under the sale tab.

We also will sell commercial bred heifers and 3-7 year old cows. All are AI bred and will have a due date of March 10, 2025 for heifers and March 24-April 15, 2025 for the older cows.

My family and I feel very fortunate to work with the outstanding folks who make this operation and sale possible. We want particularly to thank Mr. Chace Iverson our Ranch Manager and his wife Emily. Chace took over management of the ranch in mid-May and hit the ground running. He and Sean Mattice, his "straight-man" have done yeoman's work to develop the cattle, take care

of the ranch and chip in as needed with the ubiquitous construction projects. Emily Iverson, Chace's wife, manages our books and helps with the cattle when needed; we are excited to have her on the team. Jordan Dood handles our IT system and numerous databases. Dave Mullins manages our marketing and has been incredibly helpful overseeing this sale. I want to also to thank Lora Thorson who manages our website, ads and produced this catalog, Dr. Todd Shenton, Cache Consultants, our nutritionist who developed our nutrition program, and our veterinarians Dr. Ross Chewing and Dr. Ben Abbey who handles our PAP testing program. Finally, we also want to thank all of the other vendors, friends and friends of friends that have worked with us all year to support the ranch.

Lunch will be available beginning at 12:00 pm on Sale Day, December 9. We also welcome you to visit the ranch any time before the sale to view the bulls and heifers and the terrain and environment in which they are raised and conditioned.

If you have any questions, please feel free to call any of us at the numbers listed below. We look forward to meeting you and discussing this fine set of bulls and heifers.

Supplemental Information

Updated scrotal measurements, a November weight and any other updates to the sale catalog will be available at www.hollowtopangus.com as well as on sale day at the sale desk. Videos of the bulls along with their feet pictures are also available on our website.

Volume Discount

Customers purchasing 5 or more bulls will receive a 2.5% discount. Purchases of 10 or more will receive a 5% discount.

Pick-up/Delivery

Delivery service will be provided by Hollow Top Angus free of charge for purchases over \$4,000 to central point locations if the

destination is in Montana or a contiguous state. Transportation charges will be based on estimated costs to states that are not contiguous.

Bulls may be picked up immediately after the conclusion of the sale or by noon the following morning. Buyers who pick up a bull either that afternoon or on the 10th will receive a \$100 discount per bull.

If a buyer cannot take their purchase immediately, Hollow Top will care for your bulls at our Development Center. While we encourage customers to take delivery as soon as is practical, HT will care for the bulls based on the recommendations of Dr. Todd Shelton, our nutritionist, through March 31, 2025. There will be a small charge for this service. For more information contact Chace Iverson.

Herd Health and Nutrition

All cattle sell with required health papers for interstate shipment. Trich and other state-specific vaccinations will be obtained as soon as possible. All bulls have passed fertility tests administered by Dr. Ross Chewing, who will be available on sale day if you have any questions.

Dr. Ben Abbey administered the PAP tests on September 23, 2024 at approximately 5800 feet above sea level.

Dr. Todd Shenton, with Cache Consultants, designs our nutritional program. The bulls are fed free-choice hay and a customized energy/protein pellet daily.

Terms & Conditions

Bulls sold in the sale at a value exceeding or equal to \$3500 will be fully warranted if they are injured through their first breeding season, which is defined as the 90-day period commencing with their turn-out. If they are injured and cannot return to service, we will attempt to replace them with a comparable bull if available. If one is not available, we will provide a credit toward a future purchase for the purchase price minus any salvage value paid to the customer for the bull. Credits must be redeemed within the following two sale years. All injured bulls must be diagnosed by a veterinarian and a copy of the report sent to Hollow Top Angus. In the event of an injury, please notify Hollow Top Angus as soon as possible and before the bull is sold for salvage. All injury claims must be reported by September 1, 2025.

All cattle will sell under the current terms and conditions suggested by the American Angus Association, (https://www.angus.org/Pub/suggested_sale_terms.pdf). All purchases are to be settled on the sale day. Online buyers will receive an invoice, payable on demand. No cattle will be delivered without prior payment.

Hollow Top Angus is selling possession and 100% semen interest for all bulls unless otherwise noted in the catalog.

ONLINE & PHONE BIDDING

Those unable to attend in person may bid online through **Northern Livestock Auction**.

REMEMBER TO REGISTER PRIOR TO THE SALE.

Northern Livestock Auction <https://www.northernlivestockvideo.com>

How to bid through Northern Livestock Video Auction's Online Bidding Platform:

Desktop and Mobile Friendly

For the Desktop:

1. It is best to use the Google Chrome web browser.
2. Pre-Register at least one day prior to the sale.
3. Go to bid.northernlivestockvideo.com and click "Get Approved to Bid".
4. Doing this will prompt you to create an account, after which you will fill out a bidder approval application.
5. Once Approved, an email will be sent to the email account provided, please click the link in that email to activate your account and a buyer number will be provided.
6. On sale day (after approval), visit www.northernlivestockvideo.com to view and bid!

For the Mobile:

Use your mobile device to download the Northern App and follow the above steps to get approved.

There is an instructional video on how to register to bid on our website, www.northernlivestockvideo.com if you have any questions.

For technical assistance with Internet Viewing and Bidding Questions, call Sam Fraser 406-860-0590.

Phone Bidding:

Anyone wanting to use the Northern Livestock phone bank to bid must pre-register and have a bid number to bid on the phone.

To register with NLVA call 866-616-5035 Before Sale Day.

View the Online CATALOG and VIDEO CLIP of each BULL selling at www.northernlivestockvideo.com.

Bidders who are successful in making purchases will be contacted following the sale to make payment and delivery arrangements.

Sitz Profound 680G is a son of the Sitz Stellar 726D. He is an outstanding example of the standard we have set for our phenotype. He is powerful, muscular, deep and accounts for more than his share of the bull bred cows. He is docile, combines low birth weight (average for the 18 in sale is 79 lbs.) with strong growth and maternal traits, while standing on the right kind of foot. In addition to his actual PAP score of 38, HT has PAP tested 124 sons and daughters with a combined average PAP score of 41.

HA Cow Man 7939 is a bull built with the commercial breeder's goals in mind. He was acquired at the 2019 Hinman Angus sale and tied as the second highest selling bull. He has a distinguished pedigree as a son of Basin Payweight 1682 and HA Blackcap Lady 1602, the dam of the \$350,000 HA Cowboy Up 5405. He regularly produces strong maternal heifer bulls that are consistently thick and deep, with good feet and docility. He is a proven heifer bull ranking in the top 1% of the breed for BW and top 2% for Docility. HT has many of his daughters in our cowherd and they are generally amongst our best females.

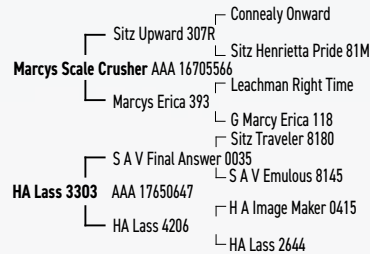

Cow Man's actual PAP score is 35 taken at nearly 2 years of age at 5800 feet. Since 2021 we have PAP-tested 89 Cow Man bulls and heifers and their average PAP is a 42. Over 70% of his 18-month old sons and 80% of his similarly aged daughters had PAP scores equal to or below 44.

20%									

HA Scale Boss H677 was the high selling bull at the Hinman Angus 2021 sale. He is a son of Marcy Scale Crusher and HA Lass 3303, who is jointly owned by Hinman Angus and Hollow Top Angus. He is a proven heifer bull producer ranking in the top 1% of the breed for CED, 3% for BW; and 20% for WW and YW. He is also a nice easy going bull with great feet. He has spent the last two summers in the mountains above the ranch and covered his share of cows and heifers. His actual PAP is 35, taken at 18 months of age at about 5800 ft. His stand-out traits are length of body and depth of rib. His calves will produce pounds at weaning.

HA Outside Two 7891 aka Two is also a prolific breeding bull, producing offspring that are a commercial breeder's dream – good sized calves with a lot of grow and maternal. Outside Two is son of KG Solution 0018 and HA Ever Lady 1575 and at \$90,000 was the top selling bull in the 2018 Hinman Sale. Two's actual PAP score is 32 and between 2021 and 2024, over 90% of his 35 tested daughters and 59% of his 24 sons had PAP scores equal to or below 44.

Owned by ABS Global Inc. and Sitz Angus Farm

Sitz Accomplishment 720F was the top selling bull of the 2019 Sitz Spring Bull Sale. He is a CAB qualified, eye-appealing, moderate-framed bull with a great top, deep rib and heavy muscled. His progeny are docile, have great feet, carry on his low PAP nature, and have generally good carcass quality. The heifers that we are retaining in our herd have his excellent phenotype and traits and bring out the best in our other lines.

Sitz Pride 308Y was the second highest selling bred cow at the 2020 Nile female sale at \$25,000. 308Y is the dam of Sitz Pride 200B, the \$112,500 cow sold at the Sitz 2021 Female Sale, and mother of Sitz Stellar 726D, the sire of several \$50,000 plus bulls sold by Sitz Angus over the past four years, including Sitz Resilient 1028 and our own Sitz Profound 680G. To date she has produced 33 calves. Her 8 natural calves have average birth, weaning, and yearling ratios of 108, 107 and 108 respectively and an average birth weight of 85 lbs.

DONOR COWS

HA EVER LADY 1575

DOB: 02/12/11 • AAA *17058509 • Tattoo 1575

HA Ever Lady 1575 is a Hinman Angus foundation cow that Hollow Top Angus purchased half-interest in for \$65,000. 1575 has been one of the most productive dams over the past 10 years for Hinman Angus. She is the grand dam of HA Cowboy Up 5405, the \$350,000 bull sold in 2016. All told, 1575 has produced 91 calves. Her 7 natural calves have average birth, weaning, and yearling ratios of 98, 107 and 108 respectively and an average birth weight of 82 lbs.

Montana Rita C065 was the top selling cow at the 2019 Montana Ranch Female sale. She is an excellent, fleshy, phenotypically stellar maternal cow with a great udder. One of her natural bull calves by Renown remains a herd bull at Hollow Top Angus. Her 8 natural calves have average birth, weaning, and yearling ratios of 104, 101 and 99 respectively and an average birth weight of 76 lbs.

HA Lass 3303 is the dam of HA Cowboy Kind 8157, the top selling bull in the 2019 Hinman Angus sale, and HA Scale Boss H677, the top selling bull at \$30,000 in the Hinman 2021 sale. She is a daughter of HA Lass 4206, one of the top females produced by HA Image Maker 0415. HA Lass 3303 is a moderate, extremely feminine, deep ribbed cow with an exemplary udder. This donor is rapidly becoming the cornerstone of our cow herd. So far she has produced a total of 41 calves. Her 6 natural calves have average birth, weaning and yearling ratios of 100, 108 and 103 respectively and an average birth weight of 84 lbs. Owned 50% by HT.

S M C Lucy 7075 is a new addition to our donor herd acquired from South Mountain Ranch in Caldwell Idaho. She is a productive young cow with added capacity, a beautiful udder, good disposition and good feet. She ranks in the top 1% of the breed for PAP EPD, and the top 3% for \$M. She is the dam of SMC Elevate who is a recent high seller for South Mountain Ranch at \$40,000, and is owned by South Mountain Ranch in Idaho, Riverside Ranch in Utah, and Hoffman Ranch in Nebraska. Her PAP EPD is in the top 1% of the breed and she ranks very high for both \$M and \$C. We are excited to add 7075's influence to our breeding program here at Hollow Top.

Notes: Lot 1 is a CAB qualified son of the widely used Tehama Tahoe and one of HT's up and coming donor prospects, HT Lass 9094, who is also CAB qualified and has three calves with WR of 107 and YR of 106. Phenotypically it is hard to find a bull put together better. He is long and deep from shoulder to his hindquarter. His back is straight and wide. His shoulder is structurally correct as is his rear end. He is very well-muscled and travels well. His feet and legs are excellent and he is very docile. His \$M and \$W EPDs are at the 2% and 1% levels and he has 20% \$G and \$B and 10% \$C EPDs.

Flush Brothers of

SITZ Profound 680G

and

Basin Lucy 4288

Lots 8, 62, 63 and 64 are flush brothers. They combine two of the best herd sires and donors in the program. Profound is a big, deep-ribbed, thick and powerful bull with strong maternal and “scratch his back” docility and very good feet. He also has an actual PAP of 38. Basin Lucy 4238 is a donor that we own jointly with Basin Angus. She is one of their best donor and a daughter of Basin Lucy 1037, one of their foundation cows. She is similarly deep-ribbed, stout and brings good carcass values.

Flush Brothers

Square B True North 8052

and
Sitz Pride 308Y

Lots 16, 17, 18 and 19 are terrific flush brothers of Square B True North and Sitz Pride 308Y. Both parents produce moderate, deep-ribbed, wide and well-muscled offspring. Square B True North is a CAB qualified son of SAV Rainfall 6846 a widely used bull offered by ABS with a 15% \$M, 10% \$W and a 15% \$G. Sitz Pride 308Y is the dam of Sitz Pride 200B, the dam of Sitz Stellar 726D, one of the most heavily used ABS Global sires over the past seven years. 308Y at age 13 is a top 10% \$W, 4% \$F and 15% \$B and \$C. She is one of our finest most productive donors. The phenotypes of this sire and dam, combined with their complimentary individual traits produce these very fine sons.

Notes: Lot 27 is one of the ranch favorites and the best looking of the Circle L Highmark sons. A feed efficient, compact bull with lots of depth of rib and width. Puppy-dog gentle with very good feet (2% Claw and 15% Angle). His actual PAP is 35.

At Hollow Top Angus

Our Terrain Drives Development and Shapes the Result

The Hollow Top Angus development program exploits the topographical benefits of the ranch's underlying land to produce practically sized, properly-conditioned, structurally sound bulls and heifers. The ranch spans several thousand acres much of which is steep, rocky, mountainous terrain. Elevations range from about 5,000 ft to 7,800 feet. All Hollow Top bulls and heifers are raised here on the ranch, so they travel extensively up and down mountains, in real world conditions and tough terrain.

Our development process is simple. Calving season starts in early March on the relatively flat pastures in the center and northern parts of the ranch. Once cows and heifers are bred, they, along with their calves, are moved to one of the mountainous pastures where the calves will spend their initial summer grazing in the rugged foothills between 6,000 and 7,000 feet elevation, without the assistance of creep.

Our initial culling process begins in September when the calves are herded down to get shots, and the bred heifers are PAP tested. Once that process is complete, they are herded back to one of the more mountainous pastures. In late October, the calves are driven down to the handling facilities where they are weaned and culled. Approximately 50% of both heifer and bull calves are culled and sold. The remaining heifers go back to the more mountainous ground, while the bull calves are moved to a large pasture in our Development Center for the winter. Sometime in late December or January depending on weather, the heifer calves are brought down to the lower and flatter pastures for the winter.

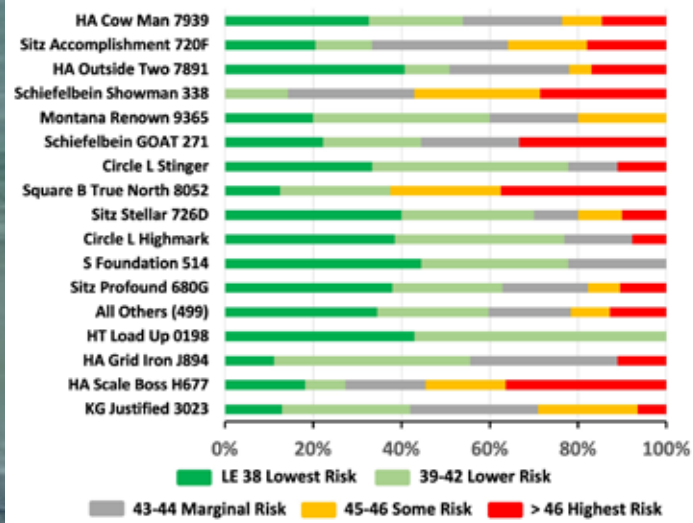

The Development Center consists of four pastures on significant inclines, strategically designed to incorporate additional movement and exercise which contributes to foot and soft-tissue development. Initially, the bulls receive a moderate diet of a developmental pellet and grass. At about 14 months the bulls are turned out for about 90 days on a large, irrigated pasture with a significant slope and rough terrain. This development phase encourages muscle expression and further enhances leg and foot soundness. In early September, the bulls come back to the Development Center for finishing on a mixture of pellet and grass/alfalfa hay, which will continue through the sale.

As you can see, the development program utilizes the land that we are blessed with to facilitate our primary development goal: to produce bulls and heifers that first and foremost breed regularly and aggressively over several years at high altitude and in rough terrain. We are not in the business of propagating and promoting the "extremes." Here, practicality and longevity is the name of the game here.

As the associated graph shows, our program works. Between 2021 and 2024 HT has PAP tested 976 bull calves and heifers. If a PAP equal to 44 is considered the threshold for relatively low risk of brisket disease, approximately 78% of all the animals and 63% of the bull calves qualify as PAP verified.

In summary, our vision and the underlying topography of the ranch drives our development approach. We firmly believe that optimization is superior to maximization when it comes to developing a product that provides maximum value to our customers.

				3%	4%					10%	2%	10%	20%					15%	4%							15%

Notes: Heifer Bull Prospect HT Goat 3104, looks like a heifer bull and his EPDs trend in that direction. He ranks in the top 3% CED, 4% BW, 15% CED and 4% Milk. He has good carcass values for CW, Marbling and REA and a 15% \$W. He has excellent feet and is a docile puppy.

Flush Brothers

Schiefelbein Showman 338 of

and
HA Lass 3303

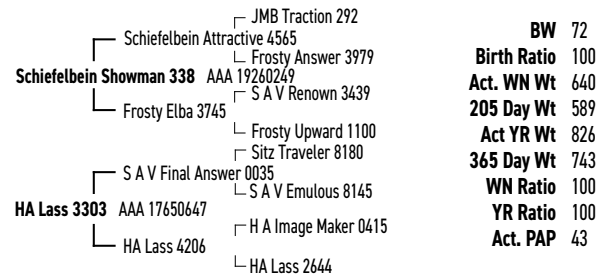

Lots 45 and 46 are good-looking flush brothers of Schiefelbein Showman 338 and HA Lass 3303. These bulls carry forward the phenotypical handsomeness of Showman. Both parents are moderate-framed with depth and width from shoulder to flank. Showman has excellent growth numbers with a 15% WW, 10% YW, 20% \$W and 15% \$F. Lass 3303 compliments Showman with a 10% CED and BW. These two sons will bring great looks, strong growth and maternal to your herd.

45

10%	20%	15%	15%				20%				10%	20%						10%					

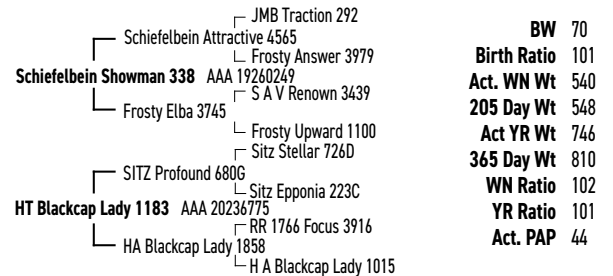

Notes: This Flush brother to Lot 45 is another phenotypical gem. He is moderately sized, yet powerful, structurally correct with thickness and depth up front with a rear end to match. His growth profile has exciting possibilities: his CED and BW EPDs 10% and 20% suggest a heifer bull; his WW and YW EPDs (15%) and his dam's Production Record suggest strong growth through weaning and thereafter. He also has strong Maternal EPDs which reinforce the heifer bull potential. He is docile and has excellent feet. His actual PAP is 45.

47

		15%										20%	10%					15%	10%				

Notes: Another good-looking Showman son. Lot 48 is a very well-muscled bull with great depth of rib, thickness and fleshiness. He is very docile and has good feet. He also has a 15% \$W and 10% \$F.

Flush Brothers of

KG Justified 3023

and
Sitz Pride 308Y

The three KG Justified sons are flush brothers by Sitz Pride 308Y. This mating is about complimentality. Justified contributes heifer bull traits, 15% and 5% CED and BW. While 308Y is higher on those traits, she brings 10% WW and 15% YW. Justified brings a 2% \$M and 4% \$W and a 20% \$G, while 308Y contributes a 4% \$F, and 15% \$B and both have 15% \$C. Both sire and dam are moderate-framed with depth.

Notes: Lot 60 is a well-made Stellar son. A little more moderate than the other Stellar sons, he is nevertheless well-muscled, deep-ribbed, thick and fleshy. His growth profile is good with 20% WW and YW, 20% and 10% MW and MH, and his dam's Production Record includes 3 calves with 117 WR and 2 calves with 117 YR. He has very good feet and docility. His actual PAP is 40.

Notes: HT Stellar 3245 is a CAB qualified potential heifer bull. He has the Stellar look: moderate-framed, deep-ribbed, thick throughout and fleshy. His 15% CED, BW and CEM suggest that he would work well for heifers. In addition his growth profile 15% WW and 20% YW, combined with his 25% MW and 15% MH and 10% \$W and 15% \$F suggests he will provide some growth punch as well. He has excellent feet with 10% Claw and Angle. His actual PAP is 46.

BRED FEMALES

Like last year we are excited to offer a great set of **commercial heifers and 3-7 year-old cows**. The heifers boast pedigrees from our top herd sires and are bred to bulls such as **Sitz Profound 680G, Ellingson Preeminent 2100, Koupals B&B Conviction, Cherry Creek Blue Collar G275, HA Grid Iron J894 and Ellingson Hi-Range**. These heifers have all been raised on the ranch at high elevation. The heifers have been PAP tested and most have scores **below 44**. Easy to look at and ready to perform in all types of terrain, these heifers will make a fine contribution to any herd. These heifers are due to calve March 10, 2025.

We are also excited to offer a terrific set of **3-7 year-old AI-bred cows**. These commercial cows are bred to **Sitz Profound 680G, Ellingson Preeminent, HA Cow Man 7939, Koupals B&B Conviction, Cherry Creek Blue Collar G275, HA Grid Iron J894, LT Clarion, Sitz Stellar 726G, and Ellingson Hi Range**. These cows have resided on the ranch, most, if not all of their lives; thus, are conditioned to breed and maintain in rough, mountainous terrain at altitude. They are due to calve between March 24 and April 15, 2025.

SEMIN SALES

Semen is available from these **PAP PROVEN** herd bulls:

**Sitz Profound 680G / HA Cow Man 7939 / HA Outside Two 7891
Ellingson Preeminent 2100 / Koupals B&B Conviction 3058 / Circle L Highmark**

New Sires

CIRCLE L HIGHMARK

Reg No. 20070516: Highmark is an eye-catching bull acquired in the 2022 Circle L sale. Highmark has an exceptionally good, classic phenotype. He is extremely deep-ribbed, stout and thick from shoulder to flank. He is docile and stands on very good feet. He has good growth and maternal and passes these traits and his carcass potential on to his sons and daughters. Highmark has an actual PAP score of 37.

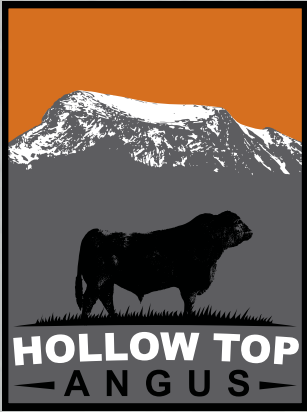

SEMEN AVAILABLE through Sire Buyer 402-267-1144 or Chase Iverson 208-365-8862.

KOUPALS B&B CONVICTION 3058

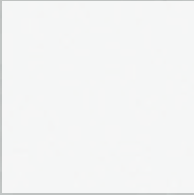

Reg No. 20756233: High selling bull at Koupal's B&B spring sale. Very phenotypically correct, standing on excellent feet with added depth of heel. 41cm scrotal. Stacked for fertility and longevity, three maternal generations are ALL top producers in the Koupal's herd. He also has a super quiet disposition. We look forward to infusing his genetics into our breeding program for phenotype, fertility, longevity and disposition. Conviction is not a high altitude bull.

SEMEN AVAILABLE through Sire Buyer 402-267-1144 or Chase Iverson 208-365-8862.
